N

Dear Administrative Court,

I write to urgently request the immediate sealing and progression of my N461 Judicial Review claim.

At 06:50 this morning (U.K. time), I filed the **fully paginated, indexed, ACO-compliant N461/N463 bundle** in a **single consolidated PDF**, together with the **signed medical report from Dr Bruce Hayse** confirming that I am in a **clinically critical mental-health condition** requiring urgent judicial action.

I respectfully reiterate that the Court has now received:

1. **Full N461 Claim Form with continuation sheets**
2. **Full N463 Urgent Application with continuation sheets**
3. **Complete paginated and indexed bundle (single PDF)**
4. **Signed medical evidence from Dr Hayse**
5. **Proof of service on both Defendants**

This package now meets all requirements of PD 54A and the Administrative Court's 2022 guidance.

Urgency & Medical Risk

Dr Hayse's signed report (filed) confirms that I am at **high psychiatric risk**, and that **timely judicial action is required for safeguarding reasons**.

A further delay would present **significant and medically documented safeguarding risk**.

This engages the Court's duties under:

- **Equality Act 2010 ss.20–21** (reasonable adjustments)
- **Equality Act s.149** (Public Sector Equality Duty)
- **The overriding objective (CJR 1.1)**
- **Administrative Court's obligations to vulnerable litigants**

Request

Given that:

- all required documents are now filed in a single compliant bundle,
- the N463 urgent application has been pending since 25 November,
- the Defendants have been served,
- and medical safeguarding risk is ongoing,

I respectfully request:

- 1. Immediate sealing of the N461 claim today**
- 2. Immediate referral of the N463 urgent application to a judge today**
- 3. Written confirmation of sealing and listing**

This matter cannot safely wait further.

I am a litigant in person with no financial access to legal representation, and I depend on the Court's process for safeguarding.

Thank you for your urgent attention.

Yours faithfully,

Nadia Zahmoul
