Dear Administrative Court,

Further to my earlier email and the filing of the complete N461 Judicial Review Bundle, I now attach the **signed medical report from my treating physician, Dr Bruce Hayse**, which confirms:

- I am experiencing a severe psychiatric crisis;
- hospitalisation may be required without timely judicial intervention;
- stability is dependent on certainty regarding the Court's process;
- and urgent consideration of my N463 application is clinically necessary.

Given this medical evidence, I respectfully ask that the Court:

**(1) Place this medical report immediately before the duty judge,**

and

**(2) Confirm the sealing and urgent listing of the N461 claim.**

I am a litigant in person without access to legal representation, acting to the best of my ability under exceptional medical strain. I am grateful for the Court's assistance in ensuring that this urgent matter is progressed in accordance with PD 54A and the reasonable adjustments duties owed under the Equality Act 2010.

Please kindly confirm receipt.

Yours faithfully,

**Nadia Zahmoul**
